The National Society for Medical Research*

The National Society for Medical Research, a clearing house for information on medical studies and discoveries, has been organized under the sponsorship of the Association of American Medical Colleges with the cooperation of 101 national scientific organizations.

Dr. Anton J. Carlson, President of the National Society for Medical Research and Professor Emeritus of Physiology at the University of Chicago, has announced the establishment of the Society's headquarters office in Chicago, Illinois. Ralph A. Rohweder, 1946 President of the Chicago Junior Association of Commerce and former consultant and editor for the National Safety Council, has been appointed Executive Secretary.

The Society has as its purpose the advancement of research in medicine, biology, pharmacy, dentistry, and veterinary medicine.

Dr. Carlson emphasized that an important function of the Society is to analyze and expose the propaganda of small but highly vocal groups which object to the use of animals in the experiments without which medical science would still be in its infancy.

Every year doctors and researchers must take time from their vital duties to defeat legislation proposed by these groups which would hamper or stop the work of the medical profession.

Secretary-Treasurer of the National Society for Medical Research is Dr. A. C. Ivy, Head of the Department of Physiology at Northwestern University. On the Board of Directors are R. B. Allen, University of Illinois; Alfred Blalock, Johns Hopkins University; C. S. Burwell, Harvard University; E. J. Carey, Marquette University; L. R. Chandler, Stanford University; W. C. Davison, Duke University; R. E. Dyer, National Institute of Health; H. S. Gasser, Rockefeller Institute; E. W. Goodpasture, Vanderbilt University; J. G. Hardenbergh, American Veterinary Medical Association; J. C. Hinsey, Cornell University.

Victor Johnson, American Medical Association; C. D. Leake, University of Texas; E. M. MacEwen, University of Iowa; W. S. McEllroy, University of Pittsburgh; B. O. Raulston, University of Southern California; A. M. Schwitalla, St. Louis University; Isaac Starr, University of Pennsylvania; E. L. Turner, University of Washington; Floyd S. Winslow, Medical Society, State of New York.

National offices of the Society are at 25 East Washington Street, Chicago, Illinois.

* Released for publication by the National Society for Medical Research, 25 E. Washington Street, Chicago 2, Illinois, July 3, 1946.

PRIZE ESSAY CONTEST

AMERICAN ASSOCIATION OF ORTHODONTISTS

Eligibility: Any member of the American Association of Orthodontists; any person affiliated with a recognized institution in the field of dentistry and/or allied or affiliated institutions or fields as a teacher, researcher, undergraduate or graduate student shall be eligible to enter the competition.

Character of Essay: Each essay submitted must represent an original investigation and contain some significant material of value to the art or science of orthodontia.

Prize: A cash prize of \$500.00 is offered for the essay judged to be the winner. The committee however reserves the right to omit the award if in its judgment none of the entries is considered to be worthy. Honorable mention will be awarded to those authors taking second and third place. The first three papers will become the property of the American Society of Orthodontists and will be published. All other essays will be returned.

Specifications: All essays must be typewritten on 8½ x 11 white paper, double spaced with 1" margins and composed in good English. Three copies of each paper, complete with illustrations, bibliography, tables, charts, etc., must be submitted. The name and address of the author must not appear in the essay. It should be typed on a separate sheet of paper and clipped to the essay. This same sheet should bear a brief biographical sketch of the author, setting forth his or her dental and/or orthodontic or other trainings, present activity and status. (Practitioner, teacher, student, research worker, etc.)

Presentation: The author of the winning essay will be invited to present it at the meeting of the American Association of Orthodontists to be held at Columbus, Ohio in April, 1948.

Final Submission Date: No essay will be considered for this competition unless received in triplicate by the Chairman of the Research Committee on or before January 15, 1948.
