Announcements

Southern California Component

Regular meetings of the Southern California Component of the Edward H. Angle Society of Orthodontia are scheduled for this fall and the coming year, to be held at Mike Lyman's restaurant in Hollywood. In the month of November, however, the regular meeting will be dropped in favor of the four day meeting to be held at Pebble Beach with the Northern California and Pacific Northwest Components.

According to a plan devised by Dr. Rathbone, mornings are devoted to a business meeting and a guest speaker, with a specific subject of clinical importance chosen for study in the afternoon. Discussion is to be begun one of the members serving as leader, with the component dividing into smaller groups of five later in the afternoon for the maximum in individual participation. Models and other records are supplied each group to augment the discussion.

"Cementation" provided subject matter for the September meeting, with Dr. Mahlon Adams serving as leader.

The October meeting brought Mr. Charles W. Teets as a guest speaker; a metallurgist, he spoke on "Heat Treatment of Gold Arches". Dr. Lasher led the afternoon discussion with "The Placement of the Edgewise Appliance".

Dr. L. S. Singleton, a reserve officer of the Dental Corps of the United States Army, has re-entered military service.

STRANG STUDY GROUP NO. 2
SHOREHAM HOTEL, WASHINGTON, D.C.
