

Information for authors

Manuscript submissions

Original manuscripts and all related correspondence should be sent to Dr. David L. Turpin, 1268 East Main Street, Auburn, WA 98002. (253) 833-5455.

The E.H. Angle Education and Research Foundation invites researchers and clinicians to submit papers on any biological or technological subject related to the dentofacial complex. Original research, clinical observations, and review articles as well as guest editorials, letters to the editor, and case reports are welcome.

Articles accepted for publication must be written in English and must not be under consideration by any other publication. Articles will be reviewed by the editor and by a number of consultants, and are subject to editorial revision.

Statements and opinions expressed in the articles are those of the author(s) and are not necessarily those of the editor or publisher. The editor and publisher disclaim any responsibility of liability for such material.

Provisions of the Copyright Act of 1976 became effective on January 1, 1978. Therefore, all manuscripts must be accompanied by the following written statement, signed by one author.

"The undersigned author transfers all copyright ownership of the manuscript (title of article) to The Angle Orthodontist in the event the work is published. The undersigned author warrants that the article is original, is not under consideration by another journal, and has not been previously published. I sign for and accept responsibility for releasing this material on behalf of any and all co-authors."

Include one complete original manuscript and two review copies.

The original manuscript should include:

- A **title page** with the manuscript title, name, degrees and affiliation(s) of each author, and address for correspondence.
- An **abstract** of 150 words or less,

briefly stating the importance of the study, the objectives, the design and statistical analysis used, and key findings and their importance.

- A list of **key words**.
- The **text** should be double spaced on white paper. It should include a combined introduction and literature review, materials and methods, results, discussion, and conclusions.
- **References.** Within the text, references should be indicated by superscript number and cited consecutively. Reference format should conform to that set forth in "Uniform Requirements for Manuscripts Submitted to Biomedical Journals" (Vancouver style). Include last name and initials of author(s), title of article, abbreviated name of journal, year of publication, volume number, and first and last page numbers. For books or book chapters, include name(s) of editor(s), city of publication, and publisher. Do not cite personal communication or unpublished data as references; you may indicate these sources within the text and append a note of approval from the source of the statement.
- **Figures and tables.** Photos should be unmounted, black and white glossy prints. Photographs of identifiable human subjects should be accompanied by a signed model release. Blocking the eyes is not acceptable. Profile photographs, sketches, radiographs, and tracings should be oriented on Frankfurt horizontal, whether shown or not, unless a different orientation is essential to the purpose.
- **Electronic illustrations.** Figures may be submitted in electronic format. Images should be in EPS or TIF format on a Zip disk, CD, or 1.44 floppy disk. Graphics software, such as Photoshop or Illustrator, should be used, not presentation software, such as PowerPoint, CorelDraw, or

Harvard Graphics. Color images need to be CMYK, at least 300 DPI, and accompanied by a digital color proof. Gray scale images should be at least 300 DPI and accompanied by a proof. Line art, whether black and white or color, should be at least 1200 DPI and accompanied by a proof. Please include hardware and software information and the file name.

Review copies should include all the above, with the following exceptions.

- The title page should contain only the manuscript title. All names and addresses should be deleted to facilitate the blind review process.
- High-quality photocopies may be substituted for original photographs. Be sure all author information is deleted from the figures.

Brief communications

The brief communication is limited to three or four pages when published, for a total of no more than 2,000 words. Brief communications should include an abstract and key words and no more than 1 table and 1 figure. Additional tables and figures may be made available upon request. References should be limited to the best 15.

Copyright and returnability

It is the policy of *The Angle Orthodontist* to grant unqualified permission for personal use by the author in audiovisual presentations; requests for other reproduction rights are considered individually.

Manuscripts, copies, and illustrations are not returnable. Original artwork will be returned on request.

Reprints

The Angle Orthodontist provides the corresponding author with 100 copies of the article. Additional copies may be ordered and paid for at the time page proofs are corrected. Requests for individual reprints of an article should be directed to the author.
