November 27, 2013

American
Association of
Orthodontists®

The mission of the AAO Foundation, the charitable arm of the American Association of Orthodontists, is to "advance the orthodontic specialty by supporting education and research".

Since the Awards Program began just 20 years ago, the Foundation has made tremendous strides in its mission to support orthodontic education and research:

- Funded 375 research and fellowship proposals, primarily for the development of junior faculty, and
- Established the AAOF Craniofacial Growth Legacy Collections Project (www.aaoflegacycollection.org) used by hundreds of investigators in over 50 countries.

The latest fundraising effort of the AAO Foundation's **Continued Commitment to the Specialty®** is the new *Research Initiative* focused on improving orthodontic research in the U.S. and Canada, with a goal of \$5 million in new pledges.

- ***Your help is needed to continue the future of your specialty.***
- ***Please consider a pledge to support this new initiative!***

For further information contact the AAO Foundation as follows:

AAOF EVP
401 North Lindbergh Blvd.
St. Louis, MO 63141-7816
