Submit Written Examination questions to the American Board of Orthodontics

The Written Examination consists of multiple-choice questions related to the basic sciences, applied biomedical sciences, orthodontic theory, orthodontic practice, related dental disciplines and the orthodontic literature. Questions are developed from various sources by the ABO's Written Examination Committee. The committee formulates questions using the recommended reading list and referencing journals, textbooks and actual clinical case reports.

In order to keep the examination relevant to orthodontics as it is practiced today, the ABO solicits questions from educators and residents across the country. These questions are reviewed and refined by the examination committee and then added to the bank of questions. The goal is to have thousands of questions in order to write multiple examinations for the computerization process. Please visit https://www.americanboardortho.com/q_submit/login.aspx to submit potential examination questions. The ABO appreciates individuals' past submissions. To thank and acknowledge these individuals, a list of contributors will be posted to our website.

Thank you in advance.

Rhonda Legge, Written Exam Coordinator

American Board of Orthodontics

401 North Lindbergh Blvd., Suite 300, St. Louis, MO 63141
