Re: Time course of expression of Bcl-2 and Bax in rabbit condylar chondrocytes following forward mandibular positioning. Mengjie Wu, Jing Zhan, Zhiyuan Gu. *Angle Orthod.* 2008;78(3):453-459

An error occurred in the printing of Figure 4 in the original paper. The authors regret that the similarity between Figure 4B and Figure 4D in the paper was likely the result of a duplication error which was unnoticed during figure preparation. The correct version of Figure 4 is provided here.

The authors apologize for any inconvenience.

Mengjie Wu
